

# ROEX<sup>®</sup> DIGESTIVE BALANCE<sup>®</sup>

## UNLOCKING THE DOOR TO BETTER DIGESTION

Enzyme supplementation is more important now than ever before. Foods that once supplied most of the body's enzyme needs are now commonly devoid of enzymes due to processing, irradiation and pre-ripe picking methods. Enzymes are required by the body to properly break down ingested food to a form that is usable by the body. Food that is not properly broken-down cannot be sufficiently digested and used by the body. Food that is not fully digested creates a buildup of gas and acid, hinders the uptake of nutrition to the body, and can lead to constipation and bowel irregularity. Therefore, supplementation with quality dietary enzymes is the key to maintaining or regaining a properly functioning digestion system.\*

The enzymes involved in food digestion are:

- lipases which breakdown fats
- proteases which breakdown proteins
- amylases which breakdown carbohydrates
- cellulases which break down fiber

### DIGESTIVE BALANCE<sup>®</sup>, ALL THE ENZYMES YOU NEED

Roex<sup>®</sup> Digestive Balance<sup>®</sup> is a complete enzyme formulation. Digestive Balance<sup>®</sup> includes a full spectrum of enzymes needed to digest and use every food classification. Roex<sup>®</sup> Digestive Balance<sup>®</sup> is a great tasting, chewable enzyme that starts working in the mouth to aid in the digestion of proteins, carbohydrates, fiber, and milk sugars.\*

### ROEX<sup>®</sup> ONLY USES PLANT AND MICROBIAL ENZYMES

Plant and microbial enzymes use a "proactive" approach and begin working on foods soon after ingestion. Supplemented pancreatic enzymes usually begin working approximately 30 minutes after food reaches the stomach. Unlike pancreatic enzymes (animal-based), plant and microbial enzymes are effective in a broad pH range and therefore remain stable in the acidic environment of the upper stomach, and get to work quicker. With increased exposure to digestive enzyme activity, food has a better chance of being broken down into small, more readily absorbed particles. Compare and you will discover that Roex<sup>®</sup> Digestive Balance<sup>®</sup> offers the most complete and active digestive enzyme formula available.\*

### Supplement Facts

Serving Size: 2 Chewable Tablets  
Servings Per Container: 45

|  | Amount per Serving | % DV |
|--|--------------------|------|
| Calories   | 5                  |      |
| <b>Total Carbohydrate</b>  | 2 gm               | <1%  |
| Sugars   | 0 gm               | *    |
| Sugar alcohols   | 2 gm               | *    |
| <b>Proprietary Digestive Enzyme Blend</b>  | 155 mg             | *    |
| <small>Amylase, CereCalase<sup>®</sup> (Hemicellulase, Beta-Glucanase, and Phytase), Glucoamylase, Lipase, Peptidase, Protease 3.0, Cellulase, alpha-Galactosidase, Invertase, Lactase, Protease 6.0, Bromelain and Papain</small> |                    |      |

\*Daily Value (DV) not established

#### ACTIVE ENZYME FORMULA

Enzyme value is determined by the level of activity which is measured by assaying the quantity of digestion that occurs under specific conditions and is referred to in units (i.e. DU, MU, AGU, HUT, ALU) not by weight (mg., mcg.)

#### COMPLETE ENZYME FORMULA

provides a full spectrum of enzymes needed to properly break down and use proteins, carbohydrates, fiber, and milk sugars.\*

**Directions:** Chew two (2) tablets before meals or as needed.

**Other ingredients:** Xylitol, maltodextrin, stearic acid, magnesium stearate, silicon dioxide, natural peppermint flavor and sodium copper chlorophyllin.
